A free online file converter gives you a fast and straightforward way to convert an MP4 to an MP3.Visit one of these three websites, upload your file, and click Convert.Within minutes, click the Download button to obtain your converted file. This article shows you how to use three free, easy-to-use online file converters. You can convert an MP4 to an MP3 in just minutes. Zamzar is a site that can convert all kinds of files. Let's focus on converting MP4 to MP3 converter on Zamzar. When you land on the MP4 to MP3 converter on Zamzar, you can either drag your file onto the screen or click Add Files to browse for it on your computer. Note the maximum file size is 50 MB. Step 2 on the converter should display MP3 in the drop-down box. If not, click and select this file type. Click Convert Now. After the file is converted, click Download and head to your default downloads location to grab it. Convertio is another good file conversion website. Like Zamzar, you can convert several other files such as documents, images, and ebooks. Visit the Converterio MP4 to MP3 converter and either drag your file onto the screen or click Choose Files to browse for it on your computer. Note the maximum file size is 100 MB. Confirm the file type you're converting to is MP3 at the top. If necessary, click the drop-down box to select it. Click Convert. When the process is complete, you'll see a Conversion Completed message. Click Download and you'll see the file in your default downloads folder. If you want to make a few adjustments to your file before you convert it, visit CloudConvert. And keep in mind that this site also offers other file conversions like the other two on our list. You can convert fonts, spreadsheets, presentations, and more. You can go straight to the MP4 to MP3 converter on CloudConvert and click Select File to get started or drag your file onto the screen. Before you upload your file, you can select the Options at the bottom to adjust the audio and trim. You can also do this after you upload your file, as we'll show you in Step 4 below. Choose the file location from the drop-down box and follow the subsequent prompts to browse for and select the file, depending on the location you pick. Confirm that MP3 displays in the drop-down for Convert To or select it if necessary. If you didn't make adjustments before uploading your file, you could do so next. Click the wrench icon. You can do things like select an audio bitrate, adjust the volume, and trim the file if you like. If you do make changes here, click Okay when you finish. When you're ready, click Convert. After the website converts the file, you'll see a pop-up window where you can click Play or Download. Thanks for letting us know! Get the Latest Tech News Delivered Every Day Subscribe Tell us why! i notebook image by Sergey Galushko from Fotolia.com Mobile file users want to convert text into MP4 players. That's not always an easy task since some people don't know how to convert text in such a way as to make it readable to MP4 players. Converting text to the MP4 video file allows the user to view the text just like it was a video file. The process needs video converter software in order for it to be attuned to both MP4 and readable text files. A reliable program that reliably converts text into MP4 is a useful tool that isn't difficult to download or use. Download QuickTime Pro. This will convert videos on the desktop of your computer. This software will operate on PCs and Mac. Click the icon of the program. Wait for the program to completely load. Now drag the text file you wish to convert to the icon of the program. Let the file load. It will be shown as a small video window. Click the "File" menu then choose "Export" from the menu. Click the drop-down menu. Select "Movie to MP4." You need to name the MP4 file you want to create by clicking "Save As." Click the "Options" button. Another window will appear. Select "Video" and choose "MPEG-4 Improved," which is located in the tab labeled "Video format." Choose the number "60" which will be found in the drop-down menu. Click the "OK" button to close out the window. Select the "Save" button that's near the lower section of the window which is showing the text file. Let the text file convert into an MP4 file. Now save the new MP4 file onto your hard drive and close the program. By Stephen Lilley i computer monitor iso right image by patrimonio designs from Fotolia.com An MP4 file is a type of computer video file. Because of the way they are compressed, MP4 video files tend to have large file sizes. If you have a lot of videos and need to conserve space on your computer's hard drive, you can convert your MP4 file to the much smaller AVI file format. The video and audio quality will remain the same, but the file size will be drastically reduced. To accomplish this task, you can use a free program called Handbrake. Click on the "Source" button. This opens a new window on screen. Use this new window to specify which MP4 video file on your computer's hard drive you want to convert to the AVI file format. Specify exactly where you'd like your new AVI file to be placed on your computer's hard drive using the "Destination" portion of the Handbrake program window. Click on the "Format" drop down menu in the "Output Settings" portion of the main Handbrake window. Select "AVI" from this menu. Click the green "Start" button at the very top of the main Handbrake window. Handbrake will now convert your MP4 video file to the AVI file format. Your new AVI file will be created in the directory you specified in the "Destination" portion of the Handbrake window. By R. Sinclair Converting between different types of multimedia files is easy. All you need is the right software. More often than not, you can even get the software for free. To convert from MP4 to Mpeg 2, use SUPER, a universal player and encoder from eRightSoft. Download and install SUPER MP4 converter from www.erightssoft.com/SUPER.html. It's free. Run SUPER by clicking on its icon. Add an MP4 file where it says, "DROP A VALID MULTIMEDIA FILE HERE," by right-clicking and selecting the file you want. Click on the "Select Output Container" menu on the upper left-hand side, and choose the software you want to use to play the converted file. Click on the "Select the Output Video Codec" menu, and select "Mpeg II." Click on the "Select the Output Audio Codec" menu, and select "Mpeg II." Right-click anywhere on the screen and select "Output File Saving Management." Choose a folder where you would like the new file to be saved. Click on Encode. SUPER will convert the MP4 file into an Mpeg 2 file, and save it in the folder that you have designated. By Stephen Lilley MP4 files are a type of computer video file. It is a common video file format used by portable media players, including the Apple iPod and iPhone devices. If you have a video file you want to play on your portable media player, you will need to convert it from whatever format it is currently in to MP4. To do this, you cannot simply change the file extension--that will damage the file. Instead, you must use conversion software to convert the video file to the MP4 file. Use Handbrake (see References). Handbrake is a program that is tailor-made for converting one type of video computer file to a different type without losing any audio or video information present in the original file. Open Handbrake and then drag your video file into the main program window. Click the "Output File Type" drop-down menu and select "MP4" from the list that appears. Click "Start" to convert your video file to MP4. Use Any Video Converter (see References). Any Video Converter is a program that is similar in interface with the aforementioned Handbrake. Click "File" and then "Open" to open the video file you want to convert in the main Any Video Converter window. Specify that you want to convert your file into an MP4 video file and then click on the "Convert" button. Use Format Factory (see References). Drag your video computer file into the main Format Factory program window. Then, click the "All to MP4" button on the left side of the window to tell the program you want to convert your video file to the MP4 file format. Once you have done this, click the "Start" button to convert your file based on the specifics you have just selected. Once this is done, a new MP4 file will be created on your hard drive.
